RAISING FUNDS FOR OUR NEWEST PROGRAM, THUMBS TO HANDS

Youth are great at using their thumbs. While texting might seem like a minor upgrade to morse code to many, young adults have the uncanny ability to text as fast as they talk. It's quite impressive, clearly, they are skilled at using their thumbs. We have dreams that one day we can embolden our youth to use their hands as seamlessly as they are using their thumbs!

At the Compassion Ranch in Newcastle, we dream of creating a learning environment where our youth can experience the trades alongside mentors who are in the trades. We believe these learning opportunities on our working ranch will help youth gain confidence and spark an interest in vocations that work with their hands. Employment in the trades can also help our youth break the cycles of poverty, abuse and a scarcity mindset. This is why our dream is called, Thumbs to Hands.

Part of what attracted us to Compassion Ranch over a year ago, was the large multi-room shop, out-buildings, a chicken coop, livestock pens, fruit trees and endless learning possibilities for the youth we serve. In order to make our dream become a reality, however, we need to raise \$101,000+ for tenant improvements, tools and large equipment for learning, training programs and a ranch transformation that will help spark an interest for future employment in the trades.

Your participation in Boots and BBQ along with your incredible generosity through fun live auction and fund-a-need ask, will help bring momentous change in the lives of local aged-out foster youth and youth from at-risk backgrounds.

Together, we can make a difference!

Fundraising Goal: \$101,000
